Soft LINE

Doors from the Soft Line collection are the quintessence of elegance and subtlety.

The modern and extremely coherent form of the door was achieved by eliminating the glass frames surrounding the glazing.

We offer minimalist models from this collection in a lacquered version in one of the colors from the palette:
Top Trends Color, Crystal Sky Color
or available RAL colors.

A very wide range of colors allows for perfect matching doors to the individual style of the home owners.

Doors from the pattern collection **3D** they attract attention and emphasize modernity of the house. This extraordinary collection of doors is based on three-dimensional patterns giving depth and dynamics. These patterns are created by combining two layers of sheet metal placed on the entire surface of the door creating interesting spatial effects. The pattern depth effect is then intensified and very effective thanks to the combination of contrasting colors from our rich palette color. The collection of 3D patterns are doors with an original design that is based on the latest architectural trends, which surprise with their originality.

LED LIGHTING

DOOR-BAR

The delicate LED light illuminating the door bar is very practical and gives an amazing visual effect.
Check which of our pull rods can be illuminated.

SIDELIGHT

Our sidelights can be equipped with the linear LED light matching the door models. The delicate horizontally arranged light mounted in the glazing will add individuality to your home.

THRESHOLD

The subtle light placed in the threshold makes the door even more beautiful and practical. Your doors keep looking great long after dusk.
